JUST EAT (2)

Hey, I've got two serious questions, can you help me out?
No.
So listen, choose either option 1 or 2
Option 1. It's midnight, but order a plate of jokbal
Option 2. Get a ticket to the express train to hell
Option 2

1.

Let me explain. There are a lot of good effects of jokbal because of collagen. Collagen prevent the aging process, and beta carotene helps the treatment for cancer. If you forgo a meal and starve yourself
You're not really starving yourself
It is fatal for teens who have not fully developed yet
If you are not fat, it leads to violence. Have you thought of how this may affect you socially?
It is now also most available and 2 hour only, so the amount of calories I have taken is 0 so I have nothing to worry about.
That makes no sense
It does!
Then you can eat jokbal without any problems then. Just eat.
GORGEOUS!
SHUT UP!!

It seems you're having trouble dividing so I'll help you
Let the lessons divide
If I throw this pencil and it stands up when it lands, you can order it.
THAT
THAT
.....

Then tell if you can answer these two problem! Fold the following numbers all up!
375, 746, 810, 165, 449, 932, 680, 123, 537, 855, 614, 341, 981, 547, 219, 546=?

Find us on potatorealm.tumblr.com
But it's fine!
As long as I have the americano that can make the calories I've consumed to 0!
He's not dead, just resting.
